

Patchwork Fleece Blanket, 4 block

50" x 60" blanket

Start with two pieces of fleece, 24-25" wide by 59-60" long; cut each in half widthwise

Using Skip Stitch blade, punch holes 1/4" to 3/8" from edges

* Crochet top two blocks to bottom two blocks from #1 to #2

* Crochet left two blocks to right two blocks from #3 to #4

At point #4, crochet around an edging around the blanket

* Sc in one block, ch 1, sc in second block; this gives a 1/2" gap between blocks

OR Sc in one block, sc in second block; this butts the blocks together with no space

You can also crochet around each block, and then crochet or whipstitch the blocks together; crochet an edging around the blanket
